

As part of Promar International's continued growth and expansion, the business is pleased to be able to advertise the following new roles to help support long term growth in both UK and global farming and the environment.

Our continued investment into long term career progression, especially through significant investment into training and development has recently been recognised by Investors In People (IIP) status.

The roles are:

Post 1: Farm Consultant/Senior Farm Consultant - Cumbria/N. Yorkshire
Post 2: Farm Consultant/Senior Farm Consultant – Gloucestershire / Avon

The main purpose of the job is to enable clients to achieve their overall business objectives, providing independent direction and actions to improve performance on a continual basis. Particular emphasis on optimising enterprise performance and improving profitability is key.

Post 3: Farm Business Secretary (Maternity Cover) – Staffordshire/Cheshire

You will be responsible for working with up to 30 clients, providing full back office support to help them run their business on a day to day basis. This will include the provision of top quality management data, completion of VAT and PAYE recording and other support activities. You will need a knowledge of farming, good computer skills and enjoy being part of a team, based from home.

Post 4: Senior Environmental Consultant – Head Office based in Stapeley, Cheshire

You will be responsible for managing existing clients, but with a significant focus on developing new client relationships in areas of nutrient management research and consultancy. In order to carry out this role effectively it is essential that you have a proven track record in tender and report writing, experience in project management and the ability to work effectively with land managers.

Post 5: Associate Environmental Consultants – Nationally based from home

To work with existing clients on agri-environmental work providing advice and research work in the field of the farmed environment. Amongst other areas of work we need to fulfil existing contracts such as the Farm Advice and Training Initiative (FATI), Catchment Sensitive Farming (CSF) and Livestock Northwest contracts, providing nutrient and resource audits.

Candidates are likely to be self-motivated with a strong commercial focus, a confident communicator, who will inspire their clients with their enthusiasm, organisation and self awareness skills.

Please apply via your Manager and to Lynda Dooley via email at lynda.dooley@genusplc.com including your CV. Closing date for applications is Monday 28th November 2011. Alternatively please view the careers information at www.promar-international.com
